I. General rules of powerlifting

1.1. GENERAL

- 1.1.1. World Raw Powerlifting Federation (Association, Organization) (as WRPF/WRPA/WRPO), called Federation or "WRPF", hereinafter «WRPF» – is independent sport organisation the main aim of which is to popularise RAW powerlifting in the world.
- 1.1.2. Technical Rules book of the WRPF is the main document, which identifies basic principles of organizing and running WRPF championships. The athletes, who are performing at the competitions according to WRPF, coaches, all the officials of the competitions, must know and abide these rules.
- 1.1.3. The WRPF recognizes the following lifts in all competitions run under WRPF rules:
 - Raw Powerlifting (Full power: Squat, Bench Press, Deadlift);
 - Classic Powerlifting (Full power: Squat, Bench Press, Deadlift);
 - Push-pull (Bench Press and Deadlift);
 - Squat;
 - Bench Press;
 - Raw Biathlon bench press 1 bodyweight (bench press to max kg and bench press to max reps);
 - Raw Biathlon bench press 1/2 bodyweight (bench press to max kg and bench press to max reps);
 - Bench Press among athletes with the physical features;
 - Deadlift;
 - Deadlift to many reps;
 - Folk Bench Press;
 - Military Bench Press;
 - Military Bench Press to many reps;
 - Russian Bench Press;
 - Powersport (army press and strict biceps curl);
 - Army press;
 - Strict biceps curl;
 - Biceps curl Classic;
 - Extreme biceps curl;
 - Apollon`s Axle biceps curl;
 - Folk Biceps curl 1/2 bodyweight;
 - Biceps curl to many reps;
 - Triathlon Biceps curl (strict biceps curl, classic biceps curl and extreme biceps curl);
 - Biathlon Biceps curl (strict biceps curl and extreme biceps curl);
 - Hip Thrust;
 - Hip Thrust to many reps;
 - Log Lift;
 - Log Lift to many reps.

- 1.1.4. This document contains technical rules for the following raw disciplines: raw powerlifting, classic powerlifting, push-pull, squat, bench press, raw biathlon bench press, deadlift, deadlift to many reps and military bench press. Separate technical rules have been developed for the remaining disciplines. They are available on the official WRPf website: <https://wrpf.pro/pravila/>.
- 1.1.5. Raw and classic Powerlifting Definition:
- 1.1.5.1. The approved costume and equipment allowed for the RAW division competitions will be defined as a non-supportive, one piece, single-ply singlet, a t-shirt, optional undershorts, socks, optional belt, shoes, and optional single-ply wrist wraps and knee sleeves. Knee wraps of any length are not allowed. The Rules of performance for all three lifts are the same for raw and classic competitors.
- 1.1.5.2. The approved costume and equipment allowed for the classic division competitions will be defined as a non-supportive, one piece, single-ply singlet, a t-shirt, optional undershorts, socks, optional belt, shoes, and optional single-ply wrist wraps, knee sleeves and knee wraps. The Rules of performance for all three lifts are the same for raw and classic competitors.
- 1.1.6. Three lifts in powerlifting must be taken in the same sequence in all competitions conducted under WRPf rules: Squat, Bench Press and Deadlift. Two lifts in Push-pull meet must be taken in the same sequence in all competitions: Bench Press and Deadlift.
- 1.1.7. The main document of the competitions, along with the rules, is the statement of competition, hereinafter the "Statement". Other changes, which are not reflected in the rules, may be changed and must be stated in the Statement.
- 1.1.8. Permissible deviations from the rules, which may be stated in the statement:
- uniting age categories in accordance with the statements of the current rules. The following age categories could be united for awards and the overall scores: «Masters M1, M2, M3, M4 and M5», into category «Masters»; «Teenagers 14-16» and «Teenagers 17-19» into «Teenagers»; uniting all age categories into the one «Open»;
 - uniting all weight classes, within the rules registered in the current Rules;
 - uniting «Amateurs Drug Tested» and «Amateurs» divisions into the one division – «Amateurs»;
 - defining the other order of counting Team Championship Scores.
- 1.1.9. Competitive results and records are determined in kilograms, repetitions or points.

1.2. DIVISIONS

1.2.1. Competitions are held among athletes in the following divisions:

- «Amateurs Drug Tested», hereinafter «Amateurs-D»
- «Amateurs non Drug Tested», hereinafter – «Amateurs»
- «Professionals»

taking into account classification the athletes into different divisions by weight categories, age categories and sex.

1.2.2. Every participant in the «Amateurs» and «Professionals» divisions is given three attempts to complete each competitive movement.

1.3. AGE CATEGORIES

1.3.1. To compete the athlete must be at least 14 or older. The athlete must be at the minimum age on the day of the competition. The athlete who haven't attained minimum age on the day of the competition can take part in the competition only with the written permission of his parents or the child's legal representative, made in the stated form.

1.3.2. The following age categories for men and women, which recognized in WRPF, in the divisions "Amateurs with DC" and "Amateurs", are divided into the age groups:

MEN / WOMEN

- Teenage: from 14 to and including 16;
- Sub-Junior: from 17 to and including 19;
- Junior: from 20 to and including 23;
- Open: from 24 to and including 39;
- Masters M1: from 40 to and including 49;
- Masters M2: from 50 to and including 59;
- Masters M3: from 60 to and including 69;
- Masters M4: from 70 to and including 79;
- Masters M5: from 80 years and older.

1.3.3. There is a special rule about the age categories:

- the day a Teenager turns 20 years he or she is no longer a Teenager;
- the day a Junior turns 24 years he or she is no longer a Junior.

1.3.4. Athletes from «Professionals» are competing in the Open age category without age classification but with sex classification.

1.3.5. It is allowed to transfer results of successful attempts from the following age categories Teenagers 14-16, Sub-Juniors 17-19, Juniors, Masters M1, Masters M2, Masters M3, Masters M4, Masters M5 into the results of successful attempts of the Open age class.

1.4. BODY WEIGHT CATEGORIES

MEN	WOMEN
<ul style="list-style-type: none">• 52,0 kg: Class up to 52,00 kg;• 56,0 kg: Class from 52,01 to 56,00 kg;• 60,0 kg: Class from 56,01 to 60,00 kg;• 67,5 kg: Class from 60,01 to 67,50 kg;• 75,0 kg: Class from 67,51 to 75,00 kg;• 82,5 kg: Class from 75,01 to 82,50 kg;• 90,0 kg: Class from 82,51 to 90,00 kg;• 100,0 kg: Class from 90,01 to 100,00 kg;• 110,0 kg: Class from 100,01 to 110,00 kg;• 125,0 kg: Class from 110,01 to 125,00 kg;• 140,0 kg: Class from 125,01 to 140,00 kg;• 140,0+ kg: Class from 140,01 kg to unlimited.	<ul style="list-style-type: none">• 44,0 kg: Class up to 44,00 kg;• 48,0 kg: Class from 44,01 to 48,00 kg;• 52,0 kg: Class from 48,01 to 52,00 kg;• 56,0 kg: Class from 52,01 to 56,00 kg;• 60,0 kg: Class from 56,01 to 60,00 kg;• 67,5 kg: Class from 60,01 to 67,50 kg;• 75,0 kg: Class from 67,51 to 75,00 kg;• 82,5 kg: Class from 75,01 to 82,50 kg;• 90,0 kg: Class from 82,51 to 90,00 kg;• 90,0+ kg: Class from 90,01 kg to unlimited.

1.5. DEFINING WINNERS AND ABSOLUTE WINNERS, REWARDING COMPETITORS

- 1.5.1. The athlete, who has finished the competition with the largest total is titled as the winner in Powerlifting, following the results of three competitive lifts. The lifted total includes the best results of all attempts performed by the athlete on the platform and taken into the account by the referees. Other athletes are determined in descending order based on the lifted total. The athletes, who lifted a zero result in all three attempts of the one lift, are excluded from further Powerlifting competition.
- 1.5.2. The athlete, who has made the largest total, is titled as the winner in Push-pull, following the results of two competitive lifts. The lifted total includes the best results of all attempts performed by the athlete on the platform and taken into the account by the referees. Other athletes are determined in descending order based on the lifted total. The athletes, who lifted a zero result in all the attempts of the one lift, are excluded from further Push-pull competition.
- 1.5.3. The athlete, who has collected the largest result performing a single lift is titled as the winner in single lift (Bench Press or Deadlift), following the results of his lift. The result includes the best numbers from all three attempts by the athlete on the platform and taken into the account by the referees. Other athletes are determined in descending order based on the lifted result.
- 1.5.4. The winner in Deadlift to many reps is the athlete who has completed the most repetitions.
- 1.5.5. The winner in Biathlon bench press is the athlete who has collected the most points based on the results of two competitive movements. The

sum includes the best attempt by weight in the first movement (bench press on max kg), and the points scored by the athlete in the second movement (bench press to many reps).

- 1.5.6. If the results of two or more athletes are the same, the preference is given to the athlete with the lighter bodyweight. If two athletes during the weight-in procedure were registered with the same body weight and by the end of the competition got the same total, the procedure of re-weighting would take place. The higher place will take the athlete whose body weight will be lighter. If the bodyweight of the athletes will be the same again, then both athletes are given the same place and the next place is not occupied.
- 1.5.7. If two or more athletes tie for the same score in Raw Biathlon bench press, the lighter athlete will place higher than the heavier athlete. If two athletes during the weight-in procedure were registered with the same body weight and by the end of the competition got the same total, the procedure of re-weighting would take place. The higher place will take the athlete whose body weight will be lighter. If the bodyweight of the athletes will be the same again, then both athletes are given the same place and the next place is not occupied.
- 1.5.8. In case of equality of repetitions in Deadlift to many reps among several athletes - the highest place is awarded to the athlete with the highest tonnage (the weight of the lifted bar multiplied by the number of scoring repetitions). In case of equal tonnage, the highest place is awarded to all these athletes.
- 1.5.9. There are places in every age category, and there are places inside them in every weight category.
- 1.5.10. The Best Lifter is defined by the Wilks coefficient in age groups: "Teenagers", "Juniors", "Open" and "Masters". While calculating points in "Masters" age category the McCullough formula is additionally applied. The final result (total) of the participant is multiplied by the coefficient, and the result (point) becomes a criterion for comparing athletes and ranging them among absolute winners. Athlete who got the highest amount of points becomes a winner. Other places are ranged in decreasing order in accordance with the number of winner's points. You can find the Table of coefficients for men and women in Appendix N^o1 to the current Rules.
- 1.5.11. The Best Lifter in Biathlon bench press is defined by the Wilkes coefficient and the Zalutsky coefficient. The formula for calculating the Best Lifter in Biathlon bench press:
 - the highest score in the first exercise is multiplied by the Wilkes coefficient and then multiplied by 50 (the coefficient of equalization of indicators);
 - the tonnage (multiplying the weight of the barbell by the number of repetitions performed) shown in the second exercise is multiplied by the Wilkes coefficient and then the resulting value is multiplied by the Zalutsky coefficient;

- the result of the first and second calculations is summed up;
 - the athlete with the highest score becomes the Best Lifter.
- 1.5.12. Rewarding ceremony of the athletes. The awarding ceremony of WRPF Championships participants and winners in the personal, absolute and team scores is held in accordance with the Statement of the competition.
- 1.5.13. The allowed uniform of the athletes for the Awards ceremony at WRPF tournaments, Championships, etc. is the following: full tracksuit, t-shirt, sport shoes. Every piece of athlete appearance must be clean and tidy. It is not allowed to use the emblems and logos on uniform of the athletes with offensive content.

1.6. TEAM CHAMPIONSHIP

- 1.6.1. Each tournament may include a team championship. The procedure and rules for forming teams, calculating team points, and all matters related to the team championship are regulated by the document "Team Championship superiority WRPF/WEPF/WAF/WSF" This document can be found at the following link: <https://wrpf.pro/dokumenty/>.
- 1.6.2. International tournaments must feature a team championship among participating countries, provided that the country selects the required number of participants. When proposing a tournament, all applications must be submitted in accordance with the tournament's terms and conditions and in the proper documentation.
- 1.6.3. The main rule for point scoring is the following: team points could be got for first ten places and are allocated in the following order:
- 12 points – for the 1 place, 9 points – for the 2 place, 8 points – for the 3 place, 7 points – for the 4 place, 6 points – for the 5 place, 5 points – for the 6 place, 4 points – for the 7 place, 3 points – for the 8 place, 2 points – for the 9 place and 1 points – for the 10 place.
- All the participants of the competition ranked below the 10th place earn 1 point for command superiority. Only the individual championship results count; the overall standings do not affect the team championship.
- 1.6.4. The team which gets the maximum number of points becomes a winner in the command superiority. If the number of team points are equal for two teams, the command which has more taken 1st places becomes a winner. In case of having the same amount of 1st places the winner is determined by the number of taken 2d, 3d, 4th and so on places.
- 1.6.5. The results of athletes from each participating country are counted toward the team championship for the top 10 countries. Each athlete may only be counted once; multiple nominations no single athlete may be counted toward the team standings for a participating country.
- 1.6.6. There could be Increasing coefficients for team scores which could be attained according to the athletes level in Sports standard (NB: in Russia

there is a system of Sports standard which is based on the bodyweight, lifted total, type of powerlifting usage of equipment and other parameters).

- 1.6.7. Team entry form should be sent by the Captain of the Team accordingly to deadline announced in the Statement. Changes and additions after deadline could be made only with the approval of the Organizing committee of the tournament.
- 1.6.8. There can be run several team championships during the competition. For example, the championship between teams of different countries, between teams of different regions or between teams of different sport clubs.
- 1.6.9. Other questions about team championship are regulated by the Competition Rules.

1.7. TOURNAMENT RANKING

- 1.7.1. WRPF identifies the following classification of tournaments:

For WRPF tournaments in different countries:

- Gym or sports club;
- City or district;
- National;
- Territorial;
- International, National.

For tournaments within the Russian Federation:

- Gym or sports club;
- City or district;
- Subject of the country/ Master's Sports Category;
- Territorial or all-Russian master;
- International, national, or all-Russian.

- 1.7.2. Requirements for the technical equipment of tournaments are listed in «Technical requirements for running WRPF competition». Obeying these requirements is an absolute must for all the competitions which are sanctioned or held under WRPF. Requirements for the referees and the process of records registration described in the relevant paragraphs of the current Rule Book.
- 1.7.3. International, National or All-Russian tournament. These are championships or cups of the world/ continent/ country or All-Russian tournaments. Assignment of sports categories up to and including the WRPF PRO/ Elite. Registration of national, continental and world records.
- 1.7.4. Territorial or All-Russian master tournament. These are championships or cups of the territorial districts of the country or All-Russian master tournaments. Assignment of categories up to and including WRPF International Class Master of Sports. Registration of national records.

- 1.7.5. The tournament of the subject of the country and/ or the master tournament. These are championships and cups of regions/ subjects of countries and/ or master tournaments. Assignment of sports categories up to and including WRPF Master of Sports. Registration of regional (subject of the country) and national records.
- 1.7.6. City or district tournament. These are championships and cups of the city or district. Assignment of sports categories up to and including WRPF Candidate for Master of Sports. Registration of regional (subject of the country), district or city records. These tournaments are held without testing for the use of banned substances.
- 1.7.7. Gym or sports club tournament. These are championships and cups of sports clubs. Assignment up to and including WRPF first sports category. Registration of district or city records. These tournaments are held without testing for the use of banned substances.
- 1.7.8. There could be done another classification of Tournaments for WRPF national departments according to the features of the country. Usage of the other classification must be approved by the President of WRPF.

1.8. DRUG TESTING

- 1.8.1. During WRPF competitions there is testing for the use of banned substances which is conducted in accordance with the «WRPF Anti-doping rules». Banned substances list and rules:
<http://wrpf.pro/en/doping-kontrol/dokumenty/>.

1.9. WRPF RECORDS

- 1.9.1. WRPF registers the following records:
 - World;
 - Continental;
 - National.
- 1.9.2. World and continental records are registered exclusively by the official WRPF record speaker. Continental records can only be set by the citizens of the continent.
- 1.9.3. National records can only be set by citizens of the country. For example, Russian records can only be set by citizens of the Russian Federation, USA records can only be set by USA citizens, and so on.
- 1.9.4. In case of setting Continental or World records on tournaments which are run by national departments of WRPF, the Officials of these national departments are responsible to provide in a strict 3-days-deadline a protocol of tournament to the HQ of WRPF. The protocol should be created in established form and represent the needed information about the set records. Regional records can also be registered in the regional offices of the WRPF (subject of the country, city). Regional records can only be set by athletes who have registered their residence in the region.

Management and accounting falls entirely on the regional representative and is not a mandatory requirement of the WRPF.

- 1.9.5. The level of set records depends on classification of the tournament.
- 1.9.6. The approved status of records depends on the rank of the referees presented at these competitions.
- 1.9.7. All records which could be set during WRPF Championships are possible to be made in the following movements:
 - Powerlifting Total;
 - Powerlifting Squat;
 - Powerlifting Bench Press;
 - Powerlifting Deadlift;
 - Push-pull Total;
 - Push-pull Bench Press;
 - Push-pull Deadlift;
 - Bench Press;
 - Military Bench Press;
 - Military Bench Press to many reps;
 - Russian Bench Press;
 - Biathlon Bench press;
 - Deadlift;
 - Deadlift to many reps;
 - Powersport Total;
 - Powersport Army press;
 - Powersport Strict Biceps curl;
 - Army press;
 - Strict Biceps curl;
 - Classic Biceps curl;
 - Extreme Biceps curl;
 - Apolloon`s Axle Biceps curl;
 - Triathlon Biceps curl Total;
 - Triathlon Biceps curl Strict curl;
 - Triathlon Biceps curl Classic curl;
 - Triathlon Biceps curl extreme curl;
 - Biathlon Biceps curl Total;
 - Biathlon Biceps curl Strict curl;
 - Biathlon Biceps curl Extreme curl;
 - Folk Biceps curl;
 - Biceps curl to many reps;
 - Hip Thrust;
 - Hip Thrust to many reps;
 - Log Lift;
 - Log Lift to many reps.
- 1.9.8. Records are recorded in each age and weight category, separated by gender. Records are kept separately for the following divisions: "Amateurs with DK," "Amateurs," and "Professionals." Records in the "Professionals" division are based on results achieved at WRPF

professional tournaments. For all other competitions, the following rule applies: An athlete's result can be included in the record bracket of the "Professionals" division only if they meet the PRO WRPF standard. If, at any official competition, an athlete achieves a PRO WRPF standard and their result exceeds the current record in the "Professional" division, then this result is counted as a new record. The record is recorded in the open age group and in the corresponding weight category, taking into account the athlete's gender.

- 1.9.9. Registration of records only takes place in the tournament sanctioned by WRPF and in full compliance with the rules of the federation and with the full accordance of the equipment, referees qualification to the stated Rules.
- 1.9.10. Record attempts can be made at any attempt. In case when during one competition, and in one category there were implemented several successful record-setting attempts, the attempt with the last, the heaviest weight would be recognized as new record.
- 1.9.11. If two lifters both set the same new record in the same competition, registering exactly the same weight lifted, the lifter that first set the record will be recognized as the official record holder.
- 1.9.12. New WRPF Records are only valid if they exceed the previous record by at least 0,5 kg (500 gr).
- 1.9.13. Records in age categories are counted even if there is only one participant at this age class.
- 1.9.14. In case of absence of the record chart results, records are defined by the results in the lifts which are set by Presidium of WRPF as a «record standard» and are accepted as records of all levels. Only athlete who exceeds «record standard» becomes a record-holder.

«Standard of Record» in the age class is equated to Sports category (please see the "Classification Standards WRPF" document on the official website – <https://wrpf.pro/normativ/>):
 - Teens 14-16 – there is no «Standard of Record»;
 - Teens 17-19 – «I sport category»;
 - Junior 20-23 – «Candidate Master of Sports»;
 - Open – «Master of Sports»;
 - Masters 40-49 – «Master of Sports»;
 - Masters 50-59 – «Candidate Master of Sports»;
 - Masters 60-69; 70-79; 80+ – there is no «Standard of Record».
- 1.9.15. At «Amateurs-D», «Amateurs» and «Professionals» divisions' fourth attempt may be given for athlete to establish a record in each movement. The only aim of this attempt is to establish a new record. This fourth attempt doesn't count in total result, and doesn't consider while ranking athletes by places at competition nor doesn't consider in registration title, accounting team points or accounting the best lifters. Except for divisions with multiple repetitions, in which the athlete is given only one attempt to perform the exercise.

- 1.9.16. Additional record attempt may be given for athlete only in case of successful (approved by the referees on the platform) third attempt in «Amateurs-D», «Amateurs» and «Professionals» divisions.
- 1.9.17. Only those athletes who applied and participated at the tournament may try to set a record in an additional attempt (i.e. an athlete with a zero result in the first three attempts but remaining in the tournament as a guest cannot set a record in the fourth attempt). If the athlete wants to set the record in single movement, he or she must be applied in advance to the division before the start of the competition. It could also take place with the approval of the organizing committee 30 minutes before the beginning of the competition.
- 1.9.18. Athletes can set the record only in the division (or divisions) in which they were lifting before the end of the last weigh-in.
- 1.9.19. The new records could be counted by age categories depending on at which category the athlete applied for the tournament – “Junior” could set a record as “Junior” and in the Open age class, «Teenagers» could set a record as «Teenagers» and in the «Open» age class, athletes from «Open» age class could set a record only in «Open» age class, «Masters» could set a record among «Masters» as well as in «Open» age class.
- 1.9.20. In case if the class of the tournament determines that all athletes can compete only in the Open category, despite their actual age (Teenagers, Juniors or Masters), the athletes can set a record in their actual age class.
- 1.9.21. After a new record was set an athlete is obligated to be completely checked in terms of clothing and equipment by Chief Referee right away on the platform. The procedure should be done immediately after the record attempt and before the athlete will leave the platform.

1.10. WRPf SPORTS CATEGORIES AND RANKS

- 1.10.1. The WRPf has developed and approved a unified system of sports categories and ranks, which can be found on the official website: <https://wrpf.pro/normativ/>. WRPf branches must use a unified system of WRPf sports categories and ranks. Sports categories and ranks are assigned by the branch in which the standard is fulfilled.
- 1.10.2. When calculating the standard for an athlete's performance, apply increasing coefficients for entry into the ranks and titles up to Master of Sports of International Class (MSIC) exclusively for athletes:
- 50-54 year olds: +10%;
 - 55-59 year olds: +15%;
 - 60-64 year olds: +20%;
 - 65-69 year olds: +25%;
 - 70 year olds and older: +30%.

In disciplines where the result is determined in kilograms, the value obtained by increasing by the corresponding percentage is rounded down to 2.5 kg.

In disciplines in which the result is determined by the number of repetitions, the value obtained by increasing by the corresponding percentage is rounded down to the nearest whole number.

This adjustment is made regardless of the age group in which the athlete is participating in the tournament. It is based on the athlete's actual age on the day of participation in the tournament.

1.11. MEMBERSHIPS IN WRPF

- 1.11.1. All athletes, referees, and other officials of the competition have to be active members of their national/local WRP Federation on the day of the tournament.
- 1.11.2. Heads of national offices could set annual Federation membership fee (the "Fee"). The fee amount could be specified in the Competition Rules. The payment should be made by athletes at the registration (during the weighing procedure). Payment by the referees is made after the initial assignment of judicial category, or during the at the registration of the participants, before the referee will start doing his obligations at the competition.
- 1.11.3. Fee is made once a year and valid through 12 months from the date of the payment. After this period the fee has to be paid again.
- 1.11.4. During the international competitions all the athletes and referees should be members of the national WRPF departments. If WRPF department in the current country does not exist, they should pay a membership of the national federation of the country which holds the tournament by paying the annual membership fee. The same rule applies to foreign participants, referees at any tournament of national WRP Federation.
- 1.11.5. All members of the WRPF must be entered into a one database. This database is available in every tournament at weighing secretary. Secretary have to conduct verification of participants in this database while registering participants. If athlete from other country participates in the competition, organizers can request the member's information from database of the national department WRPF from this country.
- 1.11.6. In order to obtain the status of a national affiliated branch of WRPF, a potential representative must submit an application in the form on the website: <https://wrpf.pro/en/zayavka-na-otkrytie-novogo-regionalnogo-otdeleniya/>.
- 1.11.7. The President of WRPF is the only person who is eligible to make the decision to open a National Office.

1.12. INTERNATIONAL AFFILIATION

- 1.12.1. Rules and requirements of the International affiliation WRPF/WEPF/WAF/WSF – are regulated by the document «International affiliation of national WRPF/WEPF/WAF/WSF». The document is available on the official website of the federation: <https://wrpf.pro/en/dokumenty/>.

II. Equipment and specification

Every tournament in each level has different requirements of presence and quantity of equipment. These requirements are listed in Appendix №2 «Technical requirements for holding WRPF competition». The fulfillment of these requirements is a must. However, all of the equipment described in them, must comply with the following items:

2.1. SCALES

2.1.1. Scales for weighing the athletes have to be digital electronic, showing weight with two decimal signs after a comma and a measuring range of at least 180 kg. A scales certificate to accompany the scales must be current to within one year of the date of the competition.

2.2. PLATFORM

2.2.1. All lifts shall be carried out on a platform measuring between 2,5 m x 2,5 m minimum and 4,0 m x 4,0 m maximum. It must not exceed 15 cm in height from the surrounding stage or floor. The surface of the platform must be flat and non-slip.

2.2.2. It is not allowed to use the platform of multiple segments are not attached to one another.

2.2.3. The upper surface of the platform must provide good grip of athlete's feet with platform, so it should be of a non-slip material and firm. It is strictly prohibited to have the segments unattached to each other.

2.2.4. Loose mats or similar sheeting materials (thickness of more than 1 cm) are not permitted.

2.3. BARS AND COLLARS

2.3.1. At the WRPF competitions only those collars and bars are allowed which provide safety while making movements.

2.3.2. The following types of bars are allowed to use:

- Standard bar for powerlifting;
- A special bar for squat;
- Special deadlift bar.

2.3.3. All bars used in competition must be created on factory production, shall be straight, clean of rust, has a well knurled and grooved. To fix weight on the bar it is necessary to use fixing collars. They have to provide a secure fix of the plates on the bar. Bar and collars must fit the following general requirements:

- total overall length should be from 2,2 and should not exceed 2,45 m;

- distance between the collar faces is less than 1,31 m and no more than 1,48 m;
- diameter of the bar should not exceed 32 mm or be less than 27 mm;
- weight of the bar and collars could be 25 or 30 kg (for special squat bar);
- collars must weigh 2,5 kg each;
- all bars used during the competition must weigh within 0,25 percent of their face value;
- diameter of the sleeve should not exceed 52 mm or be less than 50 mm.
- there shall be a diameter machined marking or the bar taped so as to measure 81 cm between marking or tape.

2.3.4. It is prohibited to change the bar during the one performing group except the case when the bar is damaged what makes the usage of this bar dangerous to the health of athletes. The decision to change the bar could be taken by Technical committee, jury or referee. Changing the bar is provided accordingly to which exercise the bar was used.

2.3.5. Bar usage during the tournament is regulated in Annex N°2 « Technical requirements for holding WRPF competition».

2.4. DISCS

Discs used in competitions WRPF must meet the following requirements:

- 2.4.1. All discs used in competition must be created on factory production, there shouldn't be no chips, cracks and other defects which can affect on their safe usage;
- 2.4.2. All discs used in competition must weight within 0,25 percent or 10 grams of their face value.
- 2.4.3. The hole size in the middle of the disc must not exceed 53 mm or be less than 51 mm.
- 2.4.4. Discs must be within the following range: 0,25 kg; 0,5 kg; 1 kg; 1,25 kg; 2,5 kg; 5 kg; 10 kg; 15 kg; 20 kg and 25 kg. Disks 50 kg are allowed for usage.
- 2.4.5. Discs weighing 25 kg must not exceed 6 cm in thickness. Discs weighing 20 kg and under must not exceed 5 cm in thickness. Discs weighing 50 kg must not exceed 12 cm in thickness. These are the rules for metal discs, not rubber-coated type.
- 2.4.6. Discs must be colored as the following: 0,25 kg, 0,5 kg, 1,25 kg, 2,5 kg; – any monochromatic color; 5 kg – white; 10 kg – green, 15 kg – yellow, 20 kg – blue, 25 kg – red, 50 kg – green. Acceptable to use disks of other color only in agreement with the head of the national department of the federation.
- 2.4.7. All discs must be clearly marked with their weight and loaded in the sequence of heavier discs innermost with the smaller discs in

descending weight arranged so that the referees can read the weight on each disc.

- 2.4.8. The first and heaviest discs are loaded on the bar must be loaded face in; the rest of the discs are loaded face out.
- 2.4.9. The diameter of the largest discs shall not be more than 45 cm. The diameter of the discs of 50 kg, 25 kg and 20 kg must be strictly 45 cm.
- 2.4.10. Rubber discs are acceptable only in case when there is a minimum of 5 cm from the outside of the collars to the end of the bar, for spotter grip outside of the discs.

2.5. SQUAT RACKS

- 2.5.1. In WRPF tournaments can be used two types of squat racks: «monolift» with a hydraulic system of changing height of racks and discharging level-arms from which the athlete takes off the bar and standard rack for powerlifting with a lever arm system of changing height of the rack.
- 2.5.2. Squat racks must be a unitary structure, durable, easy to assistants' work and ensuring safety of making attempts by the athlete.
- 2.5.3. The racks type «monolift» must be capable of being secured at the required height by means ribbons or chains. To avoid falling on the floor of the bar, in the case if athlete dropping her with themselves.
- 2.5.4. The squat racks shall be designed to adjust from a minimum height of 1,00 m in the lowest position to extend to a height of at least 1,70 m in 5 cm increments. The width between the outer edges of the arms which hold the bar must not exceed 1,2 meters.
- 2.5.5. «Monolift» racks have to have levers holding the bar that can move inwardly so that the distance between is adjusted up to 60 cm and at any of the intermediate positions the levers must be securely fixed with special clamps or wedges.
- 2.5.6. Standard squat racks should be able to tilt and bring together two vertical levers to securely fix levers in position is necessary to use clamps or wedges.
- 2.5.7. To fix the required height of racks should be used special pins.

2.6. BENCH

- 2.6.1. The bench, which used in WRPF competitions shall be a single and has a sturdy construction, be safe to participate athletes and assistants.
- 2.6.2. The bench shall conform to the following dimensions:
 - length – not less than 1,22 m;
 - width – not less than 29 cm and not exceeding 32 cm;
 - height – not less than 42 cm and not exceeding 45 cm measured from the floor to the top of the padded surface of the bench;

- the height of the uprights, which must be adjustable, shall be a minimum of 75 cm to a maximum of 110 cm measured from the floor to the bar rest position;
- minimum width between insides of bar rests shall be 1,1 m;
- the head of the bench shall extend 22 cm beyond the center of the uprights with a tolerance of 5 cm either way.

- 2.6.3. The bench must be equipped with special limiters with adjustable height.
- 2.6.4. The head of the bench must be equipped with pads for the legs of the assistant, which should not prevent the athlete to perform the powerlifting movement.
- 2.6.5. Bench height should be adjustable via a lever mechanism or jacks.
- 2.6.6. For fixing the height of vertical uprights and safety uprights pins have to be used.

2.7. LIGHTS

- 2.7.1. A system of lights shall be provided for the referees to make known their decisions of good lift or no lift. A system of lights should have an information board with three white signals and three red signals located in a horizontal row and also one panel for each of the three referees on the platform. Also judicial board should have a two-tone alarm sound. Alarms and evaluation have to be visible to the referees on the platform, to the jury, to the secretary, athlete speaking on the platform and to the audience.
- 2.7.2. When a referee detects an infraction he activates his control. Each referee will control a white and a red light. These two colors represent a «Good lift» and «No lift» respectively. Additionally, in case of «No lift», when referees give signals they have to use error information card, more about this see at chapter 2.9 of the Rules.
- 2.7.3. The lights shall be arranged horizontally to correspond with the positions of the three referees. They must be wired in such a way that they light up together and not separately when activated by the three referees.
- 2.7.4. The referees are obliged to monitor the correct completion of the athlete's competitive movement. In case of breaking the rules the referee has the right to enable the remote optical signal before completing the lift. When most of referees turn on the remote control, there is an alarm that informs the athlete that his attempt is failed.
- 2.7.5. For emergency purposes, i.e. a breakdown in the electrical system, the referees will be provided with small white or red flags or paddles with which to make known their decisions on the Chief Referee's audible command «Flags». In case of having no flags referees show their decisions by hand gestures. The thumb lifted upwards – «Good lift», thumbs down – «No lift».

2.8. CLOCKS

- 2.8.1. The timer (stopwatch) is used to set a time limit, after calling the athlete on the platform, and before the start of the lift.
- 2.8.2. The timer must be placed within the overall visibility of the referees on the platform, secretary, jury, spectators and athletes in the exit area on to platform. There should be a information board on which is visible countdown allotted for athlete output.

III. Personal equipment

On any subject of personal equipment are prohibited abusive labels which would counteract with the sporting event.

Any items of clothing and personal equipment that do not meet the requirements or are not permitted by these rules are considered prohibited for use in competitions.

3.1. LIFTING SUIT

- 3.1.1. The suit must be constructed entirely of fabric or a synthetic textile material, so that no support should be given to the lifter by the suit while lifting.
- 3.1.2. Any seams, trims or other details which, in the opinion of the members of the Technical Committee, the jury and in case of their absence, referees, applied in suits exclusively to enhance or consolidate are cause for prohibiting the use of such suit at the competition.
- 3.1.3. The suit shall be one-piece and form fitting without any looseness when is worn.
- 3.1.4. The suit straps must be worn over the lifter's shoulders at all times in all lifts in all competitions.
- 3.1.5. The lifting suit must conform to the following specifications:
 - can be created in any color, be monochrome or multicolored;
 - the suit may have the logos or emblems - of the lifter's nation – of the lifter's name – of the lifter's club or individual sponsor;
 - it is prohibited to have prints or labels with the slogans which are offensive or discrediting the sport.
- 3.1.6. Seams and hems must not be wider than 3 cm and a thickness of 0,5 cm. The seams may be covered or reinforced narrow band of stretchable fabric material is not more than 2 cm in width and 0,5 cm in thickness. Only weightlifting or wrestling suits may have seams and hems exceeding 3 cm in width. Also in suits in the crotch area may be two layers of the same with itself suits material no larger than 12 x 24 cm.
- 3.1.7. The suit must have legs, the length of the outer side of which may reach 25 cm, but the length along the inner side of leg from middle of crotch shall not be less than 5 cm and not more than 15 cm. Measurement is made from passing through the top of the crotch seam along the inside of the leg.
- 3.1.8. Do not use suites with:
 - sleeves of any length;

- any fasteners or other parts from metal, plastic or other materials that may cause injury or damage during the completing the powerlifting movement;
- it is forbidden to sew on material residues, if the straps of suit was stitched.

3.1.9. Others suits, that are not accepted by these Rules, are not allowed for the use in competitions.

3.2. T-SHIRT

3.2.1. A t-shirt must be worn under the lifting suit by all lifters during the Squat and Bench Press; men and women do not need to wear a t-shirt during the Deadlift. Also women can wear the bra or top under the t-shirt, with no additional support. You can wear only one a T-shirt at the same time.

3.2.2. The t-shirt must conform to the following specifications:

- t-shirt must be made only of cotton and / or polyester. T-shirts consist of any rubberized stretch material are prohibited. Also, denim and canvas are prohibited;
- the shirt must not have any reinforced seams or pockets, buttons, zippers or V-neck collar;
- the shirt must not have reinforced seam;
- the shirt must have sleeves. Those sleeves must terminate below the lifter's deltoid and must not extend onto or below the lifter's elbow. The sleeves may not be pushed or rolled up onto the deltoid when the lifter is competing;
- t-shirt can be an officially branded t-shirt of a competition, or may bear the logo or emblem of the lifter's nation, the lifter's club or individual sponsor;
- t-shirt must be to sit free on the athlete what is guaranteed not to give him any physical support.

3.3. BRIEFS

3.3.1. A standard commercial «athletic supporter» or standard commercial briefs (not boxer shorts) of any mixture of cotton, nylon or polyester shall be worn under the lifting suit during completing all the tree lifts.

3.3.2. Women may also wear a commercial or sports bra.

3.3.3. Swimming trunks or any garment consisting of rubberized or similar stretch material except in the waistband, shall not be worn under the lifting costume.

3.3.4. Any supportive undergarment is not legal for use in competition. Evaluation of this parameter left to the discretion of referees, the jury and the technical committee.

3.4. SOCKS

- 3.4.1. Only one pair of socks is allowed to be worn.
- 3.4.2. Socks may be of any colour or multicoloured.
- 3.4.3. They shall not be of such length on the leg that they come into contact with the knee wraps or knee sleeves.
- 3.4.4. Full length leg stockings, tights or hose are strictly forbidden.
- 3.4.5. During deadlift all the lifters should use gaiters. Their length should be such that gaiters end of 5 cm from the patella.
- 3.4.6. It is allowed to use special guards and overlays during the deadlift. They are allowed to wear under gaiters. They must be put on in such a manner that the top of guards does not protrude from the gaiters.

3.5. BELT

- 3.5.1. Competitors may wear a belt. If worn, it shall be on the outside of the lifting suit.
- 3.5.2. The belt shall be made of leather, vinyl or other similar non-stretch material in one or more laminations which may be glued and/or stitched together.
- 3.5.3. It shall not have additional padding, bracing or supports of any material either on the surface or concealed within the laminations of the belt.
- 3.5.4. The buckle shall be attached at one end of the belt by means of studs and/or stitching.
- 3.5.5. The belt may have a buckle with one or two prongs or «quick release» type («quick release» referring to lever.) A tongue loop shall be attached close to the buckle by means of studs/or stitching.
- 3.5.6. Permissible to place on the belt any inscriptions or drawings that are not abusive and did not discredit the sport.
- 3.5.7. Dimensions:
 - width of belt maximum 10 cm (1);
 - thickness of belt maximum 13 mm along the main length (2);
 - inside width of buckle maximum 11 cm (3);
 - outside width of buckle maximum 13 cm (4);
 - tongue loop maximum width 5 cm (5);
 - distance between end of belt and far end of tongue loop maximum 15 cm (6).

3.6. SHOES OR BOOTS

- 3.6.1. Shoes or boots must be worn while during completing the lifts.
- 3.6.2. Shoes shall be taken to include only sports shoes/sports boots; Weightlifting/Powerlifting boots or Deadlift slippers. The above is referring to indoor sports e.g. wrestling/basketball/ gymnastics.
- 3.6.3. No part of the underside shall be higher than 5 cm.
- 3.6.4. The thickness of the inner soles if they are not part of the factory made shoes must not exceed 1 cm.
- 3.6.5. It is forbidden to use shoes with open heel (slippers, shale).
- 3.6.6. It is forbidden to use shoes with metal spikes or strips, pads.

3.7. WRIST WRAPS

- 3.7.1. It is allowed to use bandages or wraps of elastic single-layer, only factory-produced materials: medical crepe, polyester, cotton or combinations thereof.
- 3.7.2. Wrists wraps shall not exceed 1 m in length and 8 cm in width. Any sleeves and Velcro patches/tabs for securing must be incorporated within the one meter length. A loop may be attached as an aid to securing. The loop shall not be over the thumb or fingers during the actual lift.
- 3.7.3. Standard commercial sweat bands may be worn, but they should not exceed 12 cm in width. A combination of wrist wraps and sweat bands is not allowed.
- 3.7.4. A wrist covering shall not extend beyond 10 cm above and 2 cm below the center of the wrist joint and shall not exceed a covering width of 12 cm.
- 3.7.5. Using more than one wrap on one hand at the same time is prohibited.

3.8. KNEES WRAPS

- 3.8.1. It is allowed to use wraps made only of single-layer elastic factory material: medical crepe, polyester, cotton or combination of them.
- 3.8.2. Wraps may not exceed 2.5 m in length and 8 cm in width for all weight categories. A knee wrap shall not extend beyond 15 cm above and 15 cm below the center of the knee joint and shall not exceed a total covering width of 30 cm.
- 3.8.3. Wraps must not come into contact with socks or lifting suit.
- 3.8.4. Using more than one wrap on one knee at the same time is prohibited.
- 3.8.5. Alternatively, a one ply knee sleeve or knee cap made from commercially available neoprene or woven elastic that is covered with polyester, cotton or combinations of either materials could be used. It should not be more than 30cm in length, and less than 7mm in thickness. Knee sleeves cannot have any crisscross seams that allow additional support (The Yellow Jacket Knee Sleeves are approved only for Classic RAW, not RAW). The placement of the sleeve is the same as in 3.8.3.
- 3.8.6. Raw lifters may only use the optional single ply knee sleeve during their lift, and it may not have any Velcro on it, they must be non-adjustable and non-fastening.

3.9. ELBOW SLEEVES

- 3.9.1. Elbow sleeves made from commercially available neoprene or woven elastic that is covered with polyester, cotton, or combinations of either material not exceeding 20 cm in length and 7 mm in thickness may only be worn in the squat and deadlift. Lifters may only use the optional Single Ply elbow sleeve during their lift. It may not have any Velcro on it and must be both non-adjustable and non-fastening.
- 3.9.2. The placement of the sleeve shall be approximately 10 cm above, and 10 cm below the elbow joint. The t-shirt sleeve may overlap the elbow sleeve if it does not extend below the lifter's elbow.
- 3.9.3. Elbow cuffs may only be worn directly centered on the lifter's elbow when the arm is bent at a 90-degree angle. They may not be worn as tendonitis bands on the lifter's forearm.

3.10. WRAPS, TAPES, STRAP

- 3.10.1. The wraps of medical crepe or conventional medical bandages and special wristbands require special approval for usage during competitions.
- 3.10.2. Athletes can apply to the thumbs two layers of medical tape. However, plasters and bandages can not be used by an athlete as aids in the performance of the exercises or for the hold the bar.

- 3.10.3. With the permission of the jury, official doctor or paramedic on duty medical tape may be applied on the injured body part. However, it may not be used as aids to the lifter in holding the bar.
- 3.10.4. Medical tape or its like may not be worn anywhere else on the body without official permission of the Jury, or Chief Referee. Medical tape may not be used as aids to the lifter in holding the bar.
- 3.10.5. All medical reports in accordance with which the athlete will be able to have a permission to use medical wraps and bandages during lifting should be submitted to the Chief Referee before the event to determine their suitability to the rules.
- 3.10.6. It is strictly forbidden to enter the platform wearing a headdress (hat, hat, headscarf). Headbands no more than 10 cm wide are allowed.
- 3.10.7. It is forbidden to use any wraps or bandages on the elbow joints completing "bench press".
- 3.10.8. If a lifter missing some parts of fingers, including the thumb, in which that hand is responsible for gripping a bar in the deadlift, he is permitted to use the strap. However, this strap may be used only on that hand and attached at the wrist only. The strap can only be used in agreement with the WRPF Head Referee.

3.11. INSPECTION OF PERSONAL EQUIPMENT

- 3.11.1. During the competition the inspection of personal equipment for every lifter may take place at any time. It is not a mandatory procedure. Any athlete in case of doubt of any of the referees may be checked for permissible use of equipment, both before and after the competition.
- 3.11.2. The athlete can provide the form for review during his weigh-in, but no later than 20 minutes prior to his flight.
- 3.11.3. Only the referees, the jury, the members of the Technical Committee may check the equipment of the athlete.
- 3.11.4. Equipment that does not comply with these rules is not allowed to use. But there could be exceptions. For example: the length of the bandages or trouser-leg can be cut off for the conformity to the rules.
- 3.11.5. Equipment or form that has an unkempt appearance or damaged is forbidden to use during the competition. The offensive inscriptions or images on the form or equipment are prohibited.
- 3.11.6. If the referee made a mistake when checking the equipment, it does not entitle to use this equipment during the competition. If such an error is detected, all the approaches that the athlete has fulfilled with its use, are not counted.
- 3.11.7. Items such as watches, costume jewelry, mouthpieces, eye wear and feminine hygiene articles need not be inspected.
- 3.11.8. For the athlete's safety, it is prohibited to use a telephone headset or headphones during the exercise.

3.11.9. Before attempting a world, regional, continental record the lifter will be inspected by the Technical Controller.

3.12. USAGE OF OTHER SUPPORTIVE THINGS

3.12.1. The use of oil, grease or other lubricants on the body, or personal equipment is strictly forbidden. Baby powder, resin, talc or magnesium carbonates or chalk are the only substances that may be added to the body and attire.

3.12.2. The use of any form of adhesive on the underside of footwear is strictly forbidden (this applies to any kind of ratchet inserts in the sole, steel or other things, the lining of the sandpaper, etc.).

3.12.3. It is forbidden to apply any adhesives, e.g. glass paper, emery cloth, etc. and to cover the shoes with sweet water and magnesium carbonate. A spray of water is acceptable.

3.12.4. No substances may be applied to the powerlifting equipment. This takes into account all substances other than that which may be used periodically as a sterile agent in the cleaning of the bar, bench, or platform.

3.13. ANTISEPTIC EQUIPMENT OPERATIONS

3.13.1. The presence of an athlete on the platform with bleeding or open wounds is unacceptable. Any damage must be treated and bandaged before going on the platform. If there is blood on the bar, or equipment, and the lifting must be performed, so the bar and the equipment should be sterilized with a disinfectant solution. Competition organizers are responsible for the availability of such a solution during the competition.

3.13.2. In the presence of a bleeding or open wound the athlete is obliged to resort to medical assistance for proper inspection and take the necessary measures for the treatment of wounds and to stop bleeding in order to be admitted to lift on the platform. The time allotted for the attempt does not stop, and in case of impossibility of solving this problem in a set time the athlete loses his attempt.

3.14. RELIGIOUS CONSIDERATIONS

3.14.1. WRPF welcomes all athletes and will always do everything possible to accommodate any special attire associated with religious needs. Please contact us by Email: info@russia-powerlifting.ru prior to the meet so we may assist you, ensuring your having a pleasurable meet.

IV. Power lifts and rules of performance

4.1. SQUAT

- 4.1.1. The lifter shall face the front of the platform.
- 4.1.2. After removing the bar from the racks while facing the front of the platform, the lifter may move forward or backward to establish the lifting position. If the squats are performed on the «monolift», it is not necessary to walk away from the racks. The lifter may be aided in removal of the bar from the racks by the assistants / loaders.
- 4.1.3. The bar shall be held horizontally across the shoulders with the hands and fingers should wrap around the bar from the outside. The hands may be positioned anywhere. The maximum width of the grip is until the hand touches in contact with the inner collars of bar. Do not touch discs or bushings. Any kind of grip is allowed.
- 4.1.4. Starting position – this is the position of the athlete in which: the feet flat upon the platform with the knees locked and the corpus is located vertically (slight deviation is allowable). The top of the bar not more than 3 cm below the top of the anterior deltoids.
- 4.1.5. Immediately, after the setting the starting position, the Chief Referee will give the signal to begin the lift. The Chief Referee's signal shall consist of a downward movement of the arm and audible command "Squat". Before receiving the signal to "Squat" the lifter may make any position adjustments within the rules, without penalty. For reasons of safety the lifter will be requested to "Replace" the bar, together with a backward movement of the arm, if after a period of five seconds he is not in the correct position to begin the lift. Also, " Replace" or "Help" may be called by the team's senior referee to help prevent injury to an athlete in the event of a serious error committed by the athlete, in which case the given approach would not be counted.
- 4.1.6. Upon receiving the Chief Referee's signal "Squat", the lifter must bend the knees and lower the body until the top surface of the legs at the hip joint is lower than the top of the knees.
- 4.1.7. Only one attempt is allowed to make a movement. The attempt is deemed to have commenced when the lifters knees have unlocked. Completing the lift it is allowed to get some the movement of the bar from a starting position down along the back of the athlete (the slide), but not more than thickness (diameter) of the bar.
- 4.1.8. The lifter must recover at will to an upright position with the knees locked. Double bouncing at the bottom of the squat attempt or any downward movement is not permitted. When the lifter is motionless (in

the apparent final position) the Chief Referee will give the signal to rack the bar.

- 4.1.9. The signal to rack the bar will consist of a backward motion of the arm and the audible command "Rack". The lifter must then return the bar to the racks. Foot movement after the rack signal will not be cause for failure.
- 4.1.10. For reasons of safety the lifter may request the aid of the spotter/loaders in returning the bar to, and replacing it in the racks. The lifter must stay with the bar during this process.
- 4.1.11. If a lifter inadvertently begins the lift prior to the Head Referee giving the "Squat" command, and the lifter has not continued the lift to the point they have hit the bottom of the lift and has begun the ascent of the bar, the lifter may return to the correct starting position with knees locked, or even re-rack the bar, and then begin the lift once again after the Head Referee will give the "Squat" command, without penalty.
- 4.1.12. No more than six and no less than three assistants shall be on the platform at any time.
- 4.1.13. After completing the lift, the athlete is not allowed to exit through the front of the racks. In case of a single violation of this rule, the athlete receives a warning, in case of a repeated violation, the attempt is canceled.

CAUSES FOR DISQUALIFICATION OF A SQUAT:

1. Failure to observe the Chief Referee's signals at the commencement or completion of a lift.
2. Double bouncing at the bottom of the lift, or any downward movement during the ascent.
3. Failure to assume an upright position with the knees locked at the commencement or completion of the lift.
4. Stepping backward or forward or moving the feet laterally. Rocking the feet between the ball and heel is permitted.
5. Failure to bend the knees and lower the body until the top surface of the legs at the hip joint is lower than the top of the knees.
6. Any movement of the bar from the starting position down along the back of the athlete (slipping) more than the thickness (diameter) of the bar itself.
7. Contact with the bar or the lifter by the spotter/loaders between the Chief Referee's signals in order to make the lift easier.
8. Contact of the elbows with the legs. Slight contact is permitted if there is no supporting that might aid the lifter.
9. Any dropping or dumping of the bar after completion of the lift.

10. If the athlete could not remove the bar from the racks during the allotted minute.
11. Unintentional or intentional contact of bar and racks during the execution attempt. However, unintentional contact that did not help the athlete is not a reason not to count attempt.
12. Failure to comply with any of the items outlined under Rules of Performance for the squat.

4.2. BENCH PRESS

- 4.2.1. The bench should be located on the platform with its head facing the head referee so that a convenient view of the judges and the audience is provided. The athlete is not allowed to lie down on the bench from the side of his head. In case of a single violation of this rule, the athlete receives a warning, in case of a repeated violation, the attempt is canceled.
- 4.2.2. The lifter must lie on his back with head, shoulders and buttocks in contact with the bench surface. This position shall be maintained throughout the lift.
- 4.2.3. The athlete's feet should be in a convenient position, in contact with the platform, plates or blocks installed under the feet. It is allowed to touch the sharp of the foot, as well as toe of foot touching the floor behind.
- 4.2.4. Hands and fingers must grip the bar positioned in the rack stands with a thumbs around grip. This position shall be maintained throughout the lift. One-way or reverse grips are prohibited.
- 4.2.5. The spacing of the hands shall not exceed 81 cm measured between the forefingers (both forefingers must be within the 81 cm marks and the whole of the forefingers must be in contact with the 81 cm marks if maximum grip is used). In the case when an athlete has an old injury or anatomically can not grab the bar at the same distance with both hands, he must inform the referees about it before every attempt. If necessary, the bar may accordingly be marked before every attempt of the athlete.
- 4.2.6. To achieve firm footing the lifter may use blocks which will not exceed 20 cm in total height. Blocks in the range of 5 cm, 10 cm, 15 cm should be made available for foot placement at all international competitions. Foot movement is permissible but must remain flat on the platform or blocks.
- 4.2.7. Not more than five and not less than two spotters/loaders shall be on the platform at any time. After setting up the starting position, the lifter may enlist the help of the spotter/loaders in removing the bar from the racks. The lift off if assisted by the spotter/loaders must be at arm' length.
- 4.2.8. A personal assistant of the athlete can be on the platform as a spotter per the request of the athlete. In this case an assistant needs to go on the platform in a neat sport suit only, which doesn't impede movements and doesn't have inscriptions and drawings with provocative or offensive

sense. A spotter after providing a lift off, must immediately clear the area in front of the head referee.

- 4.2.9. After removing the bar from the racks, with or without the help of the spotter / loaders, the lifter shall wait with straight arms elbows locked and hips and shoulders on the bench for the Chief Referee's signal.
- 4.2.10. The signal shall be given as soon as the lifter is motionless and the bar is properly positioned. For reasons of safety the lifter will be requested to "Replace" the bar, together with a backward movement of the arm, if after a period of five seconds he is not in the correct position to begin the lift. The Chief Referee will then convey the reason why the signal was not given. Also, the "Return" or "Help" command can be given by the senior referee on the platform to prevent injuries, in the case of an error committed by an athlete which prevents the attempt to be counted. If the personal spotter does not immediately leave the platform area and or in any way distracts or impedes the head referees responsibilities, the referees may determine that the lift is unacceptable, and it will be signaled "no lift" by the referees and given three red lights.
- 4.2.11. The signal to begin the attempt shall consist of a downward movement of the arm together with the audible command "Start".
- 4.2.12. After receiving the signal, the lifter must lower the bar to the chest or abdominal area, hold it motionless, after which the Chief referee will signal the audible command "Press".
- 4.2.13. After the "Press" command the lifter must then return the bar to straight arms' length elbows locked, non accepting significant distortions in the movement of the hands. When the position would be motionless the audible command "Rack" shall be given together with a backward motion of the arm.
- 4.2.14. If an athlete inadvertently begins to lower the barbell before the command of the central judges "Start", but does not touch the chest, he can return it to the original position on straightened elbows or even return to the racks, and then try again, after the central referee will give a command "Start".
- 4.2.15. In case when both hands anatomically cannot be straightened entirely, the athlete should provide a relevant medical report when registering or weighting in. It is the lifter's responsibility to explain the issue to all the three referees, and allow to make inspection of the intended grip prior to making an attempt.

CAUSES FOR DISQUALIFICATION OF A BENCH PRESS:

1. Failure to observe the Chief Referee's signals at the commencement, during or completion of the lift.
2. Any change in the elected lifting position during the lift proper i.e. any raising movement of the shoulders, or buttocks, from the bench, or lateral movement of hands on the bar. Movement of the head couldn't be the cause of disqualification.

3. A slight displacement or slipping of the feet should not be considered as a cause of disqualification if feet were not detached from the platform completely.
4. Any obvious (excessive) uneven straightening of the hands during the execution of the bench press.
5. Any downward movement of the whole of the bar in the course of being pressed out.
6. Bar is not lowered to chest or abdominal area i.e. not reaching the chest or abdominal area, or the bar is touching the belt.
7. Failure to press the bar to straight arms' length elbows locked at the completion of the lift. Heaving, or sinking the bar into the chest or abdominal area after it is motionless in such a way as to make the lift easier.
8. Contact with the bar or the lifter by the spotter/loaders between the Chief Referee's signals, in order to make the lift easier.
9. Any contact of the lifter's feet with the bench or its supports.
10. Failure to comply with any of the items outlined under the Rules of Performance.

4.3. MILITARY BENCH PRESS

- 4.3.1. The bench shall be placed on the platform with the head facing the front or angled up to 45 degrees, which will give the opportunity for Jury and the crowd to see the movement. The athlete is not allowed to lie down on the bench from the side of his head. In case of a single violation of this rule, the athlete receives a warning, in case of a repeated violation, the attempt is canceled.
- 4.3.2. The lifter must lie on his back with head, shoulders and buttocks (or with lumbar) in contact with the bench surface. The bench press with legs up is done with the legs off the ground. The legs are usually bent and hold in the air, and crossed between themselves and no part should touch the platform, as well as any of the elements of the bench. This position is maintained throughout the movement.
- 4.3.3. Hands and fingers must grip the bar positioned in the rack stands with a thumbs around grip. This position shall be maintained throughout the lift. One-way or reverse grips are prohibited.
- 4.3.4. The spacing of the hands shall not exceed 81 cm measured between the forefingers (both forefingers must be within the 81 cm marks and the whole of the forefingers must be in contact with the 81 cm marks if maximum grip is used). In the case when an athlete has an old injury or anatomically can not grab the bar at the same distance with both hands, he must inform the referees about it before every attempt. If necessary, the bar may accordingly be marked before every attempt of the athlete.
- 4.3.5. Not more than five and not less than two spotters/loaders shall be on the platform at any time. After setting up the starting position, the lifter may

enlist the help of the spotter/loaders in removing the bar from the racks. The lift off if assisted by the spotter/loaders must be at arm' length.

- 4.3.6. A personal assistant of the athlete can be on the platform as a spotter per the request of the athlete. In this case an assistant needs to go on the platform in a neat sport suit only, which doesn't impede movements and doesn't have inscriptions and drawings with provocative or offensive sense. A spotter after providing a lift off, must immediately clear the area in front of the head referee.
- 4.3.7. After removing the bar from the racks, with or without the help of the spotter / loaders, the lifter shall wait with straight arms elbows locked and hips and shoulders on the bench for the Chief Referee's signal.
- 4.3.8. The signal shall be given as soon as the lifter is motionless and the bar is properly positioned. For reasons of safety the lifter will be requested to "Replace" the bar, together with a backward movement of the arm, if after a period of five seconds he is not in the correct position to begin the lift. The Chief Referee will then convey the reason why the signal was not given. Also, the "Return" or "Help" command can be given by the senior referee on the platform to prevent injuries, in the case of an error committed by an athlete which prevents the attempt to be counted. If the personal spotter does not immediately leave the platform area and or in any way distracts or impedes the head referees responsibilities, the referees may determine that the lift is unacceptable, and it will be signaled "no lift" by the referees and given three red lights.
- 4.3.9. The signal to begin the attempt shall consist of a downward movement of the arm together with the audible command "Start".
- 4.3.10. After receiving the signal, the lifter must lower the bar to the chest or abdominal area, hold it motionless, after which the Chief referee will signal the audible command "Press".
- 4.3.11. After the "Press" command the lifter must then return the bar to straight arms' length elbows locked, non accepting significant distortions in the movement of the hands. When the position would be motionless the audible command "Rack" shall be given together with a backward motion of the arm.
- 4.3.12. If an athlete inadvertently begins to lower the barbell before the command of the central judges "Start", but does not touch the chest, he can return it to the original position on straightened elbows or even return to the racks, and then try again, after the central referee will give a command "Start".
- 4.3.13. In case when both hands anatomically cannot be straightened entirely, the athlete should provide a relevant medical report when registering or weighting in. It is the lifter's responsibility to explain the issue to all the three referees, and allow to make inspection of the intended grip prior to making an attempt.

CAUSES FOR DISQUALIFICATION OF A MILITARY BENCH PRESS:

1. Failure to observe the Chief Referee's signals at the commencement, during or completion of the lift.
2. Touching with the legs (any part of them) the platform or elements of bench, lateral movement of hands on the bar. Movement of the head couldn't be the cause of disqualification.
3. Pressing the bar into the chest or abdomen, moving the bar along the body, after the command "Press" by the Chief Referee.
4. Any obvious (excessive) uneven straightening of the hands during the elbows locked.
5. Any downward movement of the bar during the press, after the command "Press" by the Chief Referee.
6. Bar is not lowered to chest or abdominal area i.e. not reaching the chest or abdominal area, or the bar is touching the belt.
7. Failure to press the bar to straight arms' length elbows locked at the completion of the lift.
8. Contact with the bar or the lifter by the spotter/loaders between the Chief Referee's signals, in order to make the lift easier.
9. Failure to comply with any of the items outlined under the Rules of Performance.

4.4. DEADLIFT

- 4.4.1. The lifter shall face the front of the platform.
- 4.4.2. The bar shall lay horizontally in front of the lifters feet, gripped with an optional grip in both hands and lifted until the lifter is standing erect.
- 4.4.3. The movement is made without any signal. The movement is made till the moment until the bar is set motionless and the lifter is in the apparent finished position.
- 4.4.4. On completion of the lift the knees shall be locked in a straight position and the shoulders back.
- 4.4.5. The Chief Referee's signal shall consist of a downward movement of the arm and the audible command "Down". The signal will not be given until the bar is held motionless and the lifter is in the apparent finished position. The command "Down" is not a criterion that the athlete has taken the necessary vertical position in order for the good lift. The "Down" command can also be given by the Chief Referee if it is dictated by safety considerations of the exercise.
- 4.4.6. Any rising of the bar or any deliberate attempt to do so will count as an attempt. However, the jerk of the bar by a sportsman is possible, as a reception of a psychological mood. In case of doubt, the decision must be made in favor of the athlete.

- 4.4.7. Once the attempt has begun no downward movement is allowed until the lifter reaches the erect position with the knees locked. If the bar settles as the shoulders come back (slightly downward on completion) this should not be reason to disqualify the lift.
- 4.4.8. Once the barbell is lowered to the platform, the athlete is not permitted to move over the barbell toward the front of the platform. In case of a single violation of this rule, the athlete receives a warning, in case of a repeated violation, the attempt is canceled.

CAUSES FOR DISQUALIFICATION OF A DEADLIFT:

1. Any downward movement of the bar before it reaches the final position and the command "Down" of the Chief Referee.
2. Failure to stand erect with the shoulders back.
3. Failure to lock the knees straight at the completion of the lift.
4. Supporting the bar on the thighs during the performance of the lift. If the bar edges up the thigh but is not supported this is not reason for disqualification.
5. The lifter should benefit in all decisions of doubt made by the referee.
6. Stepping backward or forward or moving the feet laterally. Rocking the feet between the ball and heel is permitted.
7. Lowering the bar before receiving the Chief Referee's signal.
8. Allowing the bar to return to the platform without maintaining control with both hands, i.e., releasing the bar from the palms of the hand.
9. Failure to comply with any of the items outlined under Rules of Performance.

4.5. DEADLIFT TO MANY REPS

- 4.5.1. The requirements set out in Chapters 4.4.1 – 4.4.4 of these technical rules are mandatory.
- 4.5.2. Each repetition is performed strictly from touching the platform at the bottom of the amplitude to taking the final position at the top of the exercise.
- 4.5.3. The bar rebounding from the platform is forbidden. There should be a touch or stop at the platform.
- 4.5.4. It is permissible to stop at the lower and upper points of the exercise for no more than 5 seconds.
- 4.5.5. The exercise takes 4 minutes to complete. The beginning of the exercise is when the athlete performs the first repetition. At the same time, the athlete is given 1 minute to enter the platform from the moment the secretary announces that the platform is ready.

4.5.6. The referee's score means a counted repetition. If a different referee's command sounds instead of the score, it means that the athlete has made a mistake and this repetition will not be counted. If a side referee notices the mistake, he must immediately, loudly and clearly announce it in such a way that the head referee on the platform repeats this command in his voice about the athlete's mistake, instead of the next sequential count of repetition. Even if the subsequent repetition was done correctly:

- the command "Knees" is given if the athlete does not straighten his legs at the knees in the final phase of the exercise;
- the "Thighs" command is given if the athlete performs thighs support or a thighs support stop.

4.5.7. When performing deadlift to many reps, it is allowed:

- any steps or swaying of the foot from toe to heel;
- rest at the top or bottom of the exercise without losing hand contact with the bar for no more than 5 seconds.

4.5.8. When performing deadlift to many reps, it is not allowed to:

- release the bar from your hands. The lifter should not let go of the bar during the entire set. It is only allowed to intercept the bar at the bottom of the range of motion, while not releasing it completely;
- rebounding the bar from the platform, during which it bounces, giving momentum to the bar;
- the bar support with thighs during lifting. If the bar slides over the thighs when lifting up, but is not supported by thighs, this is not a reason not to count the lifted weight. In case of doubt, the referee's decision should be made in favor of the athlete;
- use of wrist straps.

4.5.9. Once the barbell is lowered to the platform, the athlete is not permitted to move over the barbell toward the front of the platform. In case of a single violation of this rule, the athlete receives a warning, in case of a repeated violation, the attempt is canceled.

4.5.10. The command to stop the approach is the head judge's "Stop" command, followed by the "Down" command.

4.5.11. Weight lifting in Deadlift to many reps:

- for men: 1.5 body weight rounded up to 2.5 kg In a big way;
- for women: 1 body weight rounded up to 2.5 kg In a big way.

THE REASONS WHY REPETITIONS IN THE DEADLIFT TO MANY REPS ARE NOT COUNTED AND THE TEAMS OF REFEREE POINTING OUT THIS MISTAKE:

1. Thighs support of the bar during lifting / the "Thighs" command.
2. Mistake in assuming an upright position with the shoulders pulled back / the "Fixing at the top" command.

3. Incomplete straightening of the legs at the knees in the final position / the "Knees" command.
4. No bar touching of the platform at the bottom of the exercise / the "Fixing at the bottom" command.
5. Rebounding the bar from the platform / the command "Bounce".

THE REASONS WHY THE EXECUTION OF THE APPROACH IS STOPPED:

1. Releasing the barbell from the arms downwards without accompaniment.
2. The end of the allotted time for the exercise.
3. The "Down" command can also be given by the Chief Referee if it is dictated by safety considerations of the exercise.
4. Stopping at the top or bottom point for more than 5 seconds and not starting the next approach after the referee's command "Start".

4.6. BIATHLON BENCH PRESS

- 4.6.1. The Biathlon bench press division is a combination of raw bench press and Folk bench press of 1 or $\frac{1}{2}$ of its athlete body weight. For this division, the technical rules for raw Bench Press exercise Chapter 4.2 of these rules. Technical rules for the Folk Bench Press division are available on the WRPf official website: <https://wrpf.pro/pravila/>.
- 4.6.2. The determination of the winners in this division is specified in clause 1.5 of these rules.

V. Weighing in

- 5.1. Weighing-in of the competitors shall be initiated 24 hours before the start of the competition for a particular category. The meet director may schedule regular weigh in any time during the 24 hour period.
- 5.2. The first weighing in session lasts an hour and a half at minimum. Second weighing in session is held two hours before and is completed a half of an hour before the start of competing of appropriate weight class. This two sessions are mandatory. Additional sessions could be possibly set by decision of Organizing committee. Information about all sessions should be brought to the attention of athletes and coaches.
- 5.3. All athletes in the category/categories must be weighed during one of two mandatory or additional (if so provided) sessions, which are carried out in the presence of at least one certified WRPF referee.
- 5.4. Schedule of weighing in is established in the regulations and It is a mandatory part of it.
- 5.5. Weighing in of each participant is held in separate room behind closed doors or a screen, where there are the participant, his coach or manager and referee or WRPF official.
- 5.6. Athletes should be weighed naked or in underwear (briefs for men; bra and panties for women). Weighing in must be conducted by officials of the same sex as the athlete is. In this case additional officials can be appointed who have a needed category of referees.
- 5.7. To establish the order a draw must be conducted during the weighing in. A draw determines the order of the lifts on the platform during the competition, when athletes set the same weight on the bar in their attempts. In the case of using an automated system for running the competitions a draw is determined by the program.
- 5.8. Each athlete could be weighed only once. Re-weighing is allowed only to those athletes, whose own weight was less or more than the permissible limits of the weight category. These athletes must return to weigh-in and be weighed again on one of two mandatory sessions, before the end of the last weighing session for the one and a half hours for this category, other way they will be excluded from the competition in this weight class. Athlete, who trying to make weight, can do weighing many times, but during the time for this weight class.
- 5.9. If weight of athlete exceeds the allowed for the weight class, he can go to the next, heavier weight class. This athlete must weigh-in in time for next weight class, if it establishes by the regulations. Athlete must match for all established qualification standards of this competition. Qualification check is performed in the presence of the athlete. If weight of athlete is lower than the minimum of weight class, he can go to the previous, lower weight class, provided that the procedure for weighing this weight class is

not over yet. Qualification check is performed in the presence of the athlete.

- 5.10. Official weight of athlete, which is recorded in the protocol, will be fixed with rounding up to 100 grams.
- 5.11. Participants of age categories “Teenagers”, “Juniors” and “Masters” may declare their participation or reconsider in “Open” category without additional weigh-in, or be weighed again if they wish.
- 5.12. At the weigh-in the athlete's data are entered in the participant's cards or in tournament program. It is required to include the following information:
 - name and surname of an athlete;
 - division;
 - birth date, age and age category;
 - country, region and city;
 - weight of athlete after weigh-in and weight class;
 - first attempts in all lifts;
 - Wilks coefficient value;
 - team;
 - name and surname of the coach;
 - draw number;
 - a signed form about accepting responsibility in the event of injury or an accident that could occur due to the fault of the athlete;
 - contacts of an athlete (telephone number, post address and e-mail);
 - date of Filling in and signature of athlete.

The secretary at weigh-in should correctly enter the information, and athlete should check correctness of all the entered data. After signing the participant's card an athlete assumes taking responsibility for the reliability of all data put in it. The participant's card is an official document of tournament.

- 5.13. Registration and weighing of participants are made only upon presentation of a document certifying the identity of an athlete.
- 5.14. During any session of weigh-in mandatory equipment check can be appointed. This information must be published in the statement of the tournament. In other way equipment check is not mandatory on weigh-in, but athlete may ask referee to check his equipment.
- 5.15. In the case when participants of several weight categories or divisions are weighted on the same time, priority in the order is given to those athletes whose performance will begin no more than 2 hours from the current time. Otherwise, the sequence of weighing is determined by the athletes themselves waiting their turn.
- 5.16. In case of severe weather or emergency situations in the competition area, time of weigh-in may be extended by decision of technical secretary or jury member.

VI. Order of competition

6.1. THE ROUND SYSTEM

- 6.1.1. Before start of competition in Bench press and Squat, athletes must measure height of the racks and face savers. Information about rack height and, if necessary, about blocks, is sent by himself, his coach or representative person to the attention of secretary, assistants or judges.
- 6.1.2. All competitors are distributed by round according to the rules of the tournament. Every round consists of three attempts for each athlete in each lifts. Creating the rounds and setting the attempts queue must comply with the rules given in this chapter.
- 6.1.3. A round must be formed in such a way that all competitors perform the same lift.
- 6.1.4. If there are more than 20 athletes at the competition or round, then they must be divided into several flights consisting of an approximate equal number of participants. One stream should consist of no more than 20 participants.
- 6.1.5. The round may include one or several weight classes, it is all up to the organizer. Rounds must be classified by numbers or letters.
- 6.1.6. Rounds are formed by weight and age classes by increasing the declared weight in the first attempt. Athletes of the lightest weight classes with the lowest first attempts are forming first round (Round 1). Next rounds are formed by ascending weight classes and weights of first attempts.
- 6.1.7. Arrangement of rounds, which included two or more lifts (powerlifting or push-pull), must be implemented as following: Round 1 performing three attempts of first lift, then Round 2 performing three attempts of first lift. At this time Round 1 athletes are warming up to second lift. When Round 2 first lift ends, Round 1 start second lift, and Round 2 lifters are warming up for next lift. If there is only one flight with several lifts, it must be in between another divisions lifts or 30 minutes between to warm up.
- 6.1.8. If number of participants in one round less than 10, an added time should be provided to the end of each round: 9 athletes – 1 minute, 8 athletes – 2 minute, 7 athletes – 3 minutes and so on: 1 minute more for 1 athlete less. Tournament secretary must make an announcement about the breaks and turn on a timer after the last athlete in the round.
- 6.1.9. In each round a bar weight is set from smallest to largest (in accordance with the existing applications of athletes). Weight can be lowered less only by mistakes. Each athlete makes first lift in the first round, second lift in the second round and third lift in the third round. All record lifts will be after the third round for each lifts.
- 6.1.10. The athlete is allowed only one weight change in the first attempt in each exercise. Weight can be increased or decreased from the original

order and then the order of lifts should be changed accordingly. The change of weight at the first attempt is possible no later than 5 minutes before the start of the first attempt, at which the athlete performs. Weight changes in the first attempt could be taken both for increase and decrease. The secretary must inform the athletes one minute before the end of the time allotted for re-applying the starting weights.

- 6.1.11. If two athletes declared the same weight, athlete who have less draw number lifts first.
- 6.1.12. Time for the attempt for "Amateurs", "Amateurs-D" and "Professionals" is one minute. Time for attempt starts after a signal of a head referee: "The bar is loaded".
- 6.1.13. If attempt failed by a bar loading mistake, there should be given an additional attempt with declared weight in the end of round. If wrong weight loaded and it checked by athlete before he starts of the lift, he can continue a lift after fixing mistake or take additional attempt in the end of a round. If an athlete is the last in this round, he gets 5 minutes more for his next attempt.
- 6.1.14. An athlete must declare the second and the third attempts in one minute after his lift. If the next attempt is not declared, 2.5 kg automatically added to last attempt weight. If last attempt was no lift and athlete haven't declared a next attempt weight, he will lift the same weight in next attempt. Responsibility for weight declaring is fully on the athlete.
- 6.1.15. Weights of the second and the third attempts cannot be changed in powerlifting and push-pull in squat and bench press lifts. Weight can be changed in the third attempts in deadlift.
- 6.1.16. In the competition of single lifts (bench press and deadlift) weight of the third attempt can be changed.
- 6.1.17. Minimal weight change is 2,5 kg.

6.2. THE OFFICIALS

- Speaker/Announcer – a national or International referee (preferably) who is fluent in English and in the language of the hosting nation.
- Technical Secretary - an International Referee preferably who is fluent in speaking and writing English and in the language of the hosting nation.
- Time Keeper (a qualified referee).
- Marshals/Expeditors.
- Secretaries.
- Spotters/Loaders.
- Additional officials may be appointed as required, e.g. doctors, paramedics etc.

RESPONSIBILITIES OF THE OFFICIALS ARE:

6.2.1. Speaker/announcer:

The speaker is responsible for qualified competition management. He must perform the following duties:

- declares the approaches by athletes in the established in these rules order. Works with protocol or member cards;
- announces the weight required for the next attempt, the name and surname of the athlete;
- announces the order of lifts of the next following three athletes, so that they are to enter the platform;
- when the bar is loaded and the platform cleared for lifting, the Chief Referee will indicate this fact to the Speaker. When the Speaker announces that the bar is ready and calls the lifter to the platform, the clock will begin. To clarify, - when the Speaker announces that the bar is “ready/loaded”, then the lifter is committed to the attempt. Attempts announced by the speaker must be displayed on the scoreboard in a prominent position, with the lifters name and his bodyweight.

6.2.2. Technical secretary:

- the Technical Secretary is responsible for forming the composition of the officials - jury, judges and other officials of the competition, the schedule of their work;
- if there is no need in a full jury of three people, he can be the only one responsible for enforcing WRPf rules. If the technical secretary is absent from the competition, then the official with the highest status must fulfill his duties;
- he is responsible to interact with all the personnel of the competition, with the referees and athletes, resolve any disputable issues, referring to the technical rules;
- he is responsible check and monitor compliance with the technical requirements for hosting WRPf tournaments, the availability of all necessary documentation in the tournament;
- he is responsible for registering the new records and collecting information for the preparation of documents.

6.2.3. Time keeper:

- the time keeper is responsible for accurately recording the lapse between the announcement that the bar is ready and the lifter starting his attempt;
- he is also responsible for recording time allowances whenever required, e.g. after the attempt the lifter shall leave the platform within 30 seconds. The only exception could take place in case when the referee checks the equipment of the athlete after setting a new record. Once the timer is running for a lifter, it can only be stopped by the completion of a time allowance, by the start of the lift, or at the discretion of the Chief Referee. Consequently, it is very important to check the height of the racks before being called on the platform, because after the call, the timer starts. Any changes in rack height must be made within the time allotted to the athlete to complete the attempt;

- after the command "The bar is loaded" the athlete is given one minute to start the attempt. During squat and bench press the beginning of the exercise is considered as unracking the bar from the racks, and for the deadlift - explicit or deliberate attempt to lift the bar from the platform. If the athlete does not fulfill these requirements during the allotted time, the timekeeper announces "Time" and the main referee gives a loud command "Rack" ("Rack"). In this case it is 'No lift" attempt. The chief referee makes the final decision after the "Time" command, by the reason that the athlete violated the time limit.

6.2.4. Marshals/expeditors:

- they are responsible for collecting the weight of required attempts from the lifters or their coaches and passing the information without delay to the speaker. The lifter is allowed one minute between completing his last attempt and informing the speaker, via the marshal, about the weight required for his next attempt;
- they are responsible for monitoring compliance with the rules of equipment in the warm-up zone. When identifying attempts to violate the requirements for equipment, for example: use both knee wraps and sleeves, or use a couple of knee wraps, etc., immediately point this out to the participant who violates the rules or his representative. If this is not possible, he reports it to the head judge or senior judge on the platform.

6.2.5. Secretaries:

- they are responsible for the weighing and registering participants, competitions, recording all results and providing signatures of three judges on the records of the competitions, records of new records and other documents requiring signatures;
- they are responsible for prepare the award ceremony. Also they print the diplomas for winners of personal, absolute and team championships. As far as possible, the functions of the Speaker and the Secretary should be distributed among several official representatives. And, they are responsible for admission of the referees to the WRPF competitions.

6.2.6. Spotters/loaders:

- they are responsible for the safety of the athlete, and provide him with immediate assistance in case if he cannot lift the weight during the attempt;
- spotters/loaders are responsible for loading and unloading the bar, adjusting squat racks and benches as required, cleaning the bar or platform;
- all the spotters should work together as a team, and should be neatly dressed in a clean uniform, in tournament T-shirts;
- all the spotters must inform the chief referee of any malfunctions in the equipment so that they can assess the problem and take the necessary measures to solve it;
- at no time shall there be less than two or more than six spotters/loaders on the platform;
- when the lifter prepares for his attempt, the spotters/loaders may assist him in removing the bar from the racks. They may also assist in replacing the bar after the attempt. However, they shall not touch the lifter or the bar during the actual attempt, i.e. during the period of time that elapses between the

commencement and completion signals. The only exception to this rule could happen if the lift is predictable “No lift” and likely to result in injury to the lifter. In this case the spotters/loaders may, either at the request of the Chief Referee or the lifter himself, step in and help the lifter to put the bar back to the racks. If the lifter himself has failed the attempt by the error of a spotter/loader and has no fault of his own, he shall be guaranteed with another attempt at the discretion of the Referees and Jury at the end of the round;

- any additional spotter that an athlete may need must be selected before the competition and be instructed by the spotter 30 minutes before the start of the competition. Additional spotter should be available to all athletes in all types of lifts.

6.3. GENERAL RULES

- 6.3.1. During any competition taking place, only the lifter and his coach, members of the Jury, officiating referees and spotter/loaders will be allowed to be around the platform or on the stage. Performing the lift, only the lifter, spotter/loaders and the referees are permitted to be present on the platform. Coaches shall remain within the designated coaching area as defined by the Chief Referee in charge. The selection of a zone for coaches should be made in such a way that each coach can choose within this zone a convenient place to observe the performance of the lifting and provide instructions and signals to the athlete regarding technical details (for example: squat depth). At the same time, it must not interfere with the work of referees, juries, secretaries and spotters. Photo/video reporters also can be admitted on the platform by agreement.
- 6.3.2. The form of coaches' clothes at international competitions consists of a national team's sports suit, a national team's T-shirt or T-shirt, approved by WRPF. In case of violation of the established form of clothing, the Chief Referee or the jury may prohibit the coach from being at the venue of the competition.
- 6.3.3. A lifter shall not wrap or adjust any part of his costume or equipment while on the platform. The only exception to this rule is that he may adjust his belt. Items such as inhalants, ammonia caps, etc. cannot be utilized on the platform.
- 6.3.4. In all WRPF recognized competitions, the weight of the barbell must always be a multiple of 2,5 kg. The progression must be at least 2,5 kg between all attempts. The weight shall be always announced in kilograms.
- 6.3.5. In a record attempt, the weight of the barbell must be at least 500 grams in excess of the current record.
- 6.3.6. During the course of the competition, a lifter may request a record attempt that is not a multiple of 2.5kg, but is to be attempted within his prescribed attempts.

- 6.3.7. Record attempts may be taken on any or all of a lifter's prescribed attempts provided that they maintain a minimum increase of 500 grams.
- 6.3.8. The athlete can make permitted additions to the weight of the bar less than 2,5 kg for attempts to set a record, only speaking at competitions corresponding to the planned record for the division and the weight class. However, if the athlete performs in an open age category, but by age is a teenager, junior or veteran, he can set a record in only his age category.
- 6.3.9. In the case where one athlete has ordered a weight that is not a multiple of 2,5 kg for the next round, in order to establish a new record, and another one performing in the same age and weight category after that shows a higher result, then the weight declared by the first athlete must be Changed to the nearest weight, a multiple of 2,5 kg.
- 6.3.10. The Chief Referee will be solely responsible for decisions taken in the case of loading errors or incorrect announcements by the speaker. His decision will be given to the speaker who will make the appropriate announcement.

EXAMPLES OF ERRORS IN SETTING THE WEIGHT OF THE BAR:

- If the bar is loaded to a lighter weight than originally requested and the attempt is successful, the lifter may accept the successful attempt or elect to take the attempt again at the originally requested weight. If the attempt is not successful, the lifter will be granted a further attempt at the originally requested weight. In both cases above, further attempts may only be taken at the end of the round in which the error occurred;
- If the bar is loaded to a heavier weight than originally requested and the attempt is successful, the lifter will be granted the attempt. However, the weight may be reduced again if required for other lifters. If the attempt is not successful, the lifter will be granted a further attempt at the originally requested weight at the end of the round in which the error occurred;
- If the loading is not the same on each end of the bar; or any change occurs to the bar or discs during the execution of the lift; or the platform is disarranged, if despite these factors, the lift is successful, the lifter may accept the attempt or elect to take the attempt again. If the successful attempt is not a multiple of 2.5 kg, then the lower closest multiple of 2.5 kg will be recorded on the score sheet. If the attempt is unsuccessful, the lifter will be granted a further attempt. Further attempts may only be taken at the end of the round in which the error occurred;
- If the speaker makes a mistake by announcing a weight lighter or heavier than that requested by the lifter, the Chief Referee will make the same decisions as for errors in loading;
- If for any reason it is not possible for the lifter or his coach to remain in the zone close to the platform in order to follow the progress of the competition and the lifter misses his attempt because the speaker

omitted to announce him at the appropriate weight, then the weight will be reduced as necessary and the lifter allowed to take his attempt, but only at the end of the round. Three unsuccessful attempts in any lift will automatically eliminate the lifter from the competition.

- 6.3.11. Three unsuccessful attempts in any exercise automatically exclude the athlete from the competition in the total of powerlifting or push pull.
- 6.3.12. The spotters should not help the athlete in taking the starting position in any of the lifts, their assistance is allowed only with the initial removal of the bar from the racks.
- 6.3.13. On the completion of an attempt, a lifter shall leave the platform within thirty seconds. Failure to comply with this rule may result in disqualification of the attempt at the discretion of the referees. The only exception to this rule is if a lifter's equipment is being inspected after a record attempt. The lifter is required not to leave the platform for this inspection to certify the records attempt.
- 6.3.14. If, during warm up or competition, a lifter suffers injury or in any other way exhibits signs of a condition which may unduly or significantly jeopardize the competitor's health and well-being, the official doctor, Meet Director, or Chief Referee has the right to examination. If considered inadvisable for the lifter to continue, the lifter and / or their coach will be notified of the decision and the lifter will be removed from the meet.
- 6.3.15. Any physical abnormality, handicap, or incapacity of a lifter that may cause an inability to fully comply with the rules should be brought to the attention of, and explained to, the appointed Contest Officials. This should be in advance of the start of the lifter's Flight. The lifter, Contest Officials, and the platform referees for the particular lifter will then confer on the matter to best accommodate any special considerations for the lifter. Deafness, blindness, limb, or joint abnormalities that prevent proper straightening or extension, are examples for such special considerations.
- 6.3.16. It is considered a verbal warning if any official contacts and corrects a lifter prior to, or after a lift, about a technical portion of their lift, a rules violation, or about any equipment violations they may have. If the lifter repeats the violation it is mandatory that their lift will be turned down by all three officials. If an official gives any lifter a verbal warning to a lifter, they must immediately inform all other officials on the platform that an official warning was given, and the reason for it, so the three officials can work together as a team at all times. A repeated violation by a lifter will result in a mandatory red light by all officials.
- 6.3.17. Blood or particles of skin on the bar or platform should be cleaned off with the solution of antiseptic or alcohol to avoid infection.
- 6.3.18. Any lifter or coach, who by reason of his misconduct before, during, or after the competition is likely to discredit the sport, shall be officially warned. If the misconduct continues, the Meet Director or Head

Referee may disqualify the lifter and order the coach to leave the venue. This includes any lifter, coach, or the lifters support personal, from arguing, using foul language, or becoming abusive with any Referee or official about the outcome of any lifts, or the legality of equipment determinations.

- 6.3.19. The jury or referees may by their majority decision immediately disqualify an athlete or official if they believe that the violation of the rules is serious enough to entail an immediate disqualification rather than a warning.
- 6.3.20. The athlete or his coach has the right to approach the referee in order to find out the reason for the non-scoring approach only at the end of his approach (before inviting the athlete following him on the list to the podium), and not at any other time. The referee must comment on the violation clearly and briefly, in order to avoid delaying the competition.
- 6.3.21. In the case of a decision "2 to 1" referees, the athlete or his representative has the right to appeal to the jury within one minute (if there is a video recording of his attempt of appropriate quality, on which you can determine the error of the referees). Together with the video material, the sportsman or his representative will give the jury a deposit amount of 1,000 Russian rubles (about \$25). If the jury recognizes the mistake decision of the judges, the security deposit immediately returns to the athlete or his representative, and the athlete is given additional attempt at the end of the current round (if by the end this round, there are three performances of other athletes or less, as well as the appellant was the last to lift in the attempt, then before his an attempt he is given a 3 minutes break). Decision of the referees in a controversial attempt is not subject to change.
- 6.3.22. In the case that the jury recognizes the referees' assessment is correct, or the video cannot unambiguously and unmistakably determine the correctness of the athlete's approach, an additional attempt is not given to the athlete, the deposit is not returned to the athlete and transferred to the cashier for further expenditure at the discretion of the Chief Referee of the competition.
- 6.3.23. Untimely protests are not considered.
- 6.3.24. Videos of poor quality and/or made from an inappropriate angle are not accepted.
- 6.3.25. Within a 30 day period of all WRPf sanctioned meets should clear and credible video of any record lift become available to the WRPf that demonstrates a lift was misloaded it will be reviewed by the Executive Committee. If the bar was determined to be under loaded the correct weight will be credited. If this amount is still a new record, the record will be awarded at the new lower amount. If the bar was determined to be overloaded the correct weight will be credited and the new record will stand at the correct amount of weight as determined by the Committee. This video is used only for the purpose of determining the correct weight setting for the approach, which was a new record. It will

not be used to analyze other approaches or challenge the judges' decisions.

- 6.3.26. An athlete participating in a division that includes the Bench Press exercise is required to measure the safety restraints before the approach and order them to the secretary or assistants of the platform during the time allotted for their measurement.
- 6.3.27. The height of the safety restraints is selected in such a way that in the lower position (the barbell on the athlete's chest), no more than 75 mm should remain from the neck to the horizontal plane of the safety restraints.
- 6.3.28. Tournament officials (platform secretaries, judges on the platform) must ensure that all athletes participating in the divisions where there is a Bench Press exercise measure and order the height of the safety restraints to the platform secretary or assistants.
- 6.3.29. If, during the exercise, the judges or the platform secretary see that the height of the safety restraints ordered by the athlete is insufficient, then they must notify the athlete about this and re-measure and adjust the height of the safety restraints.
- 6.3.30. If this is dictated by safety considerations, the judges on the platform or the secretary can independently make adjustments to the height of the safety restraints ordered by the athlete.

VII. Referee, jury and technical committee

7.1. REFEREES

- 7.1.1. There should be 3 referees – the Chief Referee or Center Referee and two side referees.
- 7.1.2. The three referees may seat themselves in what they consider to be the best viewing positions around the platform for each of the three lifts. However, the Chief Referee must always bear in mind the need to be visible to the lifter performing the squat or deadlift. Side referees should not sit strictly from on each side from the athlete, during the deadlift, because the discs on the bar will close the view on the athlete's knees.
- 7.1.3. The referees are responsible for the qualitative and timely evaluation of attempts.
- 7.1.4. The referees supervise observance of rules of competitions and performance of lift.
- 7.1.5. The Chief Referee is responsible for giving the necessary signals for all three lifts. The side referees can give a signal to the Chief Referee if they see from their point a violation in taking the starting position by the athlete in squats or bench press.
- 7.1.6. Before the contest, the three referees shall jointly ascertain that:
 - the platform and competition equipment comply in all respects with the rules. Bars and discs are checked for weight discrepancies and defective equipment discarded. A second bar and collars should be ready and put aside in case of damage to the original bar or collars;
 - the scales work correctly and are accurate;
 - the lifters weigh in within the limits of weight and time for their body weight category;
 - the lifters costumes and personal equipment comply with the rules in all respects.
- 7.1.7. During the contest the three referees must ascertain that:
 - the weight of the loaded bar agrees with the weight announced by the speaker. Referees may be issued with bar loading charts for this purpose or a computer generated bar loading software may also be used and projected on a screen that is in a clear and visible location for the three referees;
 - the lifter's personal equipment should comply with the rules while on the platform. If any referee has the reason to doubt a lifter's integrity in this respect he must inform of his suspicions the Chief Referee after completion of the lift. The president of the Jury may then examine the lifter's personal equipment. If the lifter is found to be

wearing or using any illegal item the lifter shall be immediately disqualified from the competition. If wearing any illegal item passed in error by the examining referees, and the lift in which the discovery was made is successful, the lift will be rejected and then the lifter will be granted a new attempt (having removed the illegal item) at the end of the round;

- in cases of minor disruption in the equipment, the athlete's attempt may be counted. In this case, he is issued a warning so that this violation has been eliminated to the next approach. If such violation is found before the approach begins, the judge should ask to correct this violation. However, the time allotted to the athlete does not stop at the approach.
- 7.1.8. Once the bar has been replaced in the racks or on the platform at the completion of the lift, the referees will announce their decisions by means of the lights. White for a "good lift" and red for "no lift".
 - 7.1.9. The lifter or his coach may request the reason for a "no lift" decision from any of the Referees immediately following their lifters attempt. Such request must be made before the next lifters attempt begins, so as not to interfere with the progression of the competition.
 - 7.1.10. Referees shall abstain from commentary and not receive any document or verbal account concerning the progress of the competition.
 - 7.1.11. A referee shall not attempt to influence the decisions of the other referees.
 - 7.1.12. The referees decide on the legitimacy of record attempts, conduct re-checking of equipment of athletes who have made a record attempts, directly on the platform (not allowing the athlete to leave the competition zone, until the end of the check).
 - 7.1.13. The Chief Referee may consult with the side referees, the jury or any other official as necessary in order to expedite the competition.
 - 7.1.14. The Chief Referee may, at his own discretion, instruct to clean the bar or platform. If the athlete or coach ask to clean the bar or platform, this request should be directed to the Chief Referee, and not to the spotters on the platform.
 - 7.1.15. The Change of the referee team in the process of competing one Round is forbidden. Except when the qualifications of the referees are not sufficient to register a record attempt. It is desirable that worked one referee team at the one and the same lift in different categories.
 - 7.1.16. The selection of a referee to act as Chief Referee in one category does not preclude his selection as a side referee in another category.
 - 7.1.17. Cell phones or other similar electronic devices are not allowed to be in use while judging.

7.1.18. Referees will be uniformly dressed as follows:

- **men, winter:** Black/Dark blue blazer and black/dark blue trousers with a white shirt;
- **men, summer:** Black/Dark blue trousers with a white shirt;
- **women, winter:** Dark blue blazer and black/dark blue skirt or trousers and a white blouse or shirt;
- **women, summer:** Black/Dark blue skirt or trousers and a white blouse or shirt.

The referees of tournaments WRPf must have the appropriate distinctive signs, chevrons. Only black shoes, boots, or tennis shoes (no sandals or open toed shoes) are allowed. All apparel items will be neat and clean at all times.

7.1.19. Examples of faults that should be considered a minor oversight are:

- socks overlaid or touching the knee wraps;
- thumb loops not being removed prior to the lift;
- the leg length of the singlet exceeding proper requirements;
- deadlift socks not completely covering the top of the calves.

7.1.20. Examples of infractions that must be corrected prior to the lifter making their attempt are:

- the lifters suit/singlet straps not being worn over their shoulders;
- items forgotten to be removed that may have been worn for warm-ups or to maintain warmth (e.g. hats, rubber elbow sleeves, etc.);
- raw lifters not wearing a t-shirt while squatting or benching;
- no socks, or ankle socks, being worn during the deadlift.

7.1.21. Examples that should be considered a purposeful attempt to cheat are:

- the use of more than one lifting suit or any suit that has been altered beyond the specs within the rulebook;
- wearing more than one pair of underwear or illegal support briefs;
- the use of more than one shirt or an illegal supportive shirt or illegal undershirt;
- the use of more than one pair of wraps, more than one ply (wraps sewn together) or wraps over regulation length;
- any additions such as body wraps, towel inserts, bracing, etc. Presence of oil, grease, liquids, or lubricants other than chalk or approved powder.

7.1.22. The referees of WRPf tournaments whose activities will be deemed unsatisfactory must be suspended from the performance of judicial functions until the moment of recertification.

The conditions for the removal of referees are:

- improper adherence to the conditions of refereeing, specified in these rules;
- biased judging, actions in favor of one or more athletes to the detriment of the rest of the tournament participants;

- the performance in WRPF competitions of action or actions discrediting their reputation in relation to any states, nations, races, individuals or legal entities.

7.2. QUALIFICATIONS OF REFEREES

7.2.1. Referee of regional category:

- must be a member of the sports federation “WRPF / World Raw Powerlifting Federation”;
- must be recommended by his regional representative and approved by the President of the sports federation “WRPF / World Raw Powerlifting Federation”;
- he should be at least 18 years old and must have a minimum of 01 year experience as an athlete competing in powerlifting and single lifts;
- must pass a written test on the form adopted in the sports federation “WRPF / World Raw Powerlifting Federation” and a practical test under the supervision of the chairman of the referees committee (or candidate for his position) at the time of full competition, sanctioned sports federation “WRPF / World Raw Powerlifting Federation”;
- he must pass the test on the 90% and higher;
- must pass a practical test within 30 days after delivery of a written test;
- should officiate as a referee for at least at the 2 competitions, status is not below those which are assigned to the title of Master of Sport, throughout the year in sport federation “WRPF / World Raw Powerlifting Federation” to maintain accreditation;
- he must follow all the updates and changes in the rules of the sport federation “WRPF / World Raw Powerlifting Federation”;
- the referee, who is not running for 2 years, loses his title.

7.2.2. Referee of national category:

- must be a member of the sports federation “WRPF / World Raw Powerlifting Federation”;
- he must be recommended by a regional representative, a referee of a national or international category in the his region, and approved by the president of the sports federation “WRPF / World Raw Powerlifting Federation”;
- must be a referee of regional category for at least 2 years;
- during this period must be in referee for at least on 6 events, status is not below those which are assigned to the title of Master of Sport, with an average experience of the five flight on a single event;
- must pass a written test on the form adopted in the sports federation “WRPF / World Raw Powerlifting Federation” under the supervision of the chairman of the referees committee;
- he must pass the test on the 90% and higher;
- should officiate as a referee for at least at the 2 competitions, status is not below those which are assigned to the title of Master of Sport, throughout

the year in sport federation “WRPF / World Raw Powerlifting Federation” to maintain accreditation;

- he must follow all the updates and changes in the rules of the sport federation “WRPF / World Raw Powerlifting Federation”;
- the referee, who is not running for 2 years, loses its title.

7.2.3. Referee of international category:

- must be a member of the sports federation “WRPF / World Raw Powerlifting Federation”;
- must be recommended by the chairman committee of the referees «WRPF / World Federation of powerlifting without equipment" and approved by the President of the sports federation “WRPF / World Raw Powerlifting Federation” from among the judges of a national category;
- must be a referee of national category for at least 3 years;
- during this period must be in referee for at least on 9 events, with an average experience of the five flight on a single event. During this period must be running a referee by at least on three national and three international tournaments;
- must pass a written test on the form adopted in the sports federation “WRPF / World Raw Powerlifting Federation” under the supervision of the chairman of the referees committee;
- he must pass the test on the 90% and higher;
- if not passed the test, the candidate must wait 6 months to retake the test;
- should officiate as a referee for at least at the 2 competitions, status is not below those which are assigned to the title of Master of Sport, throughout the year in sport federation “WRPF / World Raw Powerlifting Federation” to maintain accreditation;
- he must follow up all the updates and changes in the rules of the sport federation “WRPF / World Raw Powerlifting Federation”;
- the referee, who is not running for 2 years, loses his title.

7.3. JURY

- 7.3.1. A jury will be appointed to preside over each lifting session. The jury must be present during the international tournaments. In the absence of a jury at the tournament, these functions are performed by the head referee of the competition.
- 7.3.2. The jury shall consist of three referees, the highest ranking shall be designated president of the jury.
- 7.3.3. The function of the jury is to ensure that the technical rules are correctly applied.
- 7.3.4. During the competition the jury may, by a majority vote, replace any referee whose decisions in their opinion, prove him to be incompetent. The concerned referee must have received a warning prior to any action of dismissal. If a protest is made to the Jury against a referee, then the

referee may be informed of the protest. The Jury should not put unnecessary stress on platform referees.

- 7.3.5. The impartiality of referees cannot be doubted, but a mistake in refereeing can be committed in good faith. In such a case, the referee shall be allowed to give his explanation for making the decision, which is the subject of his receiving a warning.
- 7.3.6. If a serious mistake occurs in the refereeing which is contrary to the technical rules, the jury may take appropriate action to correct the mistake. They may at their discretion, grant the lifter a further attempt.
- 7.3.7. The jury shall not at any time overrule or change the decisions of the referees.
- 7.3.8. The members of the jury will be positioned to ensure an unimpeded view of the competition.
- 7.3.9. Before each competition, the President of the jury must be sure that the members of the jury have a complete knowledge of their role and are warned about new rules which are described in the most current edition of the WRPF rulebook.
